~~PROTECTED~~

John,

As you are aware, s.47F(1)

s.47F(1)

In addition, s.47F(1)

s.47F(1)

This is combining to put considerable pressure on living space in the Residence, to the point where there is no space available for the HOM's visitors, s.47F(1) There is no capacity in the basement, with all storage areas fully utilised. The only viable option is to free up additional living/bedroom space on the top floor of the Residence.

s.22(1)(a)(ii), s.47F(1)

There would be no structural work needed on the top floor but we would expect to incur costs for painting and carpet/upholstery cleaning in order to make the space suitable s.47F(1) We would estimate \$10k in total for these costs, depending on the condition of the spaces once we can access them. s.22(1)(a)(ii)

Subject to any views you may have, we would like to proceed with this proposal.

s.47C(1)

Regards, Justin.

Justin McPhillips

Justin

I don't object to the proposal. I'll leave Paul and FMB to come back on the additional cost.

Best John

John,

Many thanks. Once we have a clearer picture on likely costs, we will inform Paul and FMB and discuss next steps.

Regards, Justin.
