Australia has an interest in a stable and prosperous Maldives, underpinned by strong democratic institutions and a robust civil society.

### Strategic direction

Australian Official Development Assistance to the Maldives is predominately focused on strengthening people to people links. The Australia Awards program will remain the cornerstone of Australia's development assistance to the Maldives. Assistance will also help to strengthen political participation, and support legislative and institutional reform.

In alignment with the 2030 Agenda for Sustainable Development and the Sustainable Development Goals (SDGs), the objectives of the Australian aid program to the Maldives are to:

- improve human resource development, particularly in the tertiary sector
- foster people to people links
- strengthen governance, especially through a stronger civil society and improved access to justice.

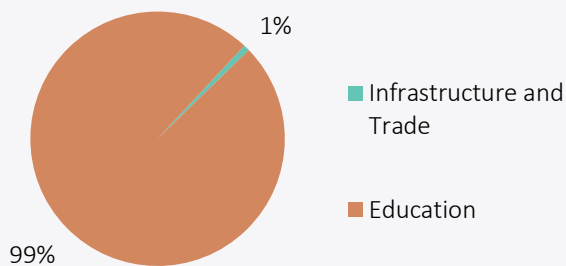

In 2016-17, we will offer 33 new **Australia Awards** scholarships for Maldivian students to study in Australia.
