ANNEX 1
PROJECT DESCRIPTION

1. Project Background

The objective of the Viet Nam Australia Development Cooperation Program is to advance Australia's national interest by assisting Viet Nam to reduce poverty and achieve sustainable development. It is anticipated that the new Country Strategy for Viet Nam (2002-2006) will focus on the rural development, water supply and sanitation, and governance sectors, with a geographic concentration on the Mekong Delta and central coast regions. A strong human capacity building effort will underpin the entire program. Australian Development Scholarships (ADS) will remain a significant element of the new country strategy.

1.1 Scholarship Administration:
Primary responsibility for ADS Selection and Pre-Departure Administration to date has rested with the AusAID Post. Candidates are selected by a joint selection committee comprising representatives from MOET, GDVT and AusAID Hanoi, on the basis of development impact and academic and professional merit.

AusAID has decided to outsource part of the ADS management/administrative responsibilities but will retain responsibility for the development of annual targeting strategies, management of the application processes and tasks in relation to selection processes.

1.2 The Pre-Departure Training Program (PDTP)
The Pre-Departure Training Program is a preparatory training program for ADS awardees which focuses on developing the academic English and study skills Vietnamese students require to participate successfully in tertiary education in Australia. Currently, all ADS students are required to undertake at least one term of Pre-Departure Training in Vietnam which is administered as one component of the Viet Nam Australia English Language, Technical Training and Resources (VAT) Project. The VAT project will conclude in mid 2003 and the Pre-Departure Training Program will continue under the new ADS Pre-Departure Project with the acronym “ADS PREP”.

1.3 The ADS PREP Project
ADS PREP is designed to serve the goals of the ADS Program in Viet Nam. The Project Design Document (PDD) accommodates both the new phase of pre-departure training and the need to outsource ADS administration and placement tasks.

2. Project Goal and Purpose

The project goal is ‘to contribute to human resource development in areas of agreed focus in the Vietnam-Australia Development Cooperation Program’.
The project **purpose** is ‘to prepare ADS awardees for tertiary study in Australia through the provision of intensive in-country training and to place them in appropriate courses with ongoing support’. The project design employs a direct service model, whereby the AMCs achieve training and administrative outputs to mutually determined standards within fixed timelines. The project has no explicit capacity-building goal or design features.

3. **Project Objectives**

Project components will be designed to pursue the following key objectives:

**Component 1**  ** ADS Training**  
Objective 1  To provide a high-quality and cost-effective ADS Training pathway which allows awardees to achieve appropriate English language skill levels, as measured by the IELTS, and effective skills for living and study in Australia.

**Component 2**  ** ADS Support**  
Objective 2  To efficiently and effectively provide administrative support at key points for ADS in Viet Nam, including promotion, placement, mobilisation, management of course variations and monitoring of progress and outcomes.

**Component 3**  **Project Management**  
Objective 3  To facilitate project effectiveness through efficient project management services.

4. **Project Duration and Phasing**

The project will commence in May 2003 with a one-month period of handover between the out-going VAT AMC and the in-coming ADS PREP AMC/s. The project duration will be thirty six months (36) with a possible extension subject to review of both contractor performance, project progress and changes in the local context.

23 January 2008

Dear Mr. Hung,

Exchange of Letters No. 2:
Amendment to the Subsidiary Arrangement of the
ADS Pre-departure Project
(One year extension)

I am writing this letter in regard to a further amendment to the Subsidiary Arrangement (SA) of the ADS Pre-departure Project (Project), signed by the delegates of the two Governments on 14 July 2003, and as amended on 12 February 2007.

I refer to Clause 13 of the Subsidiary Arrangement which stipulates that "Amendments to this SUBSIDIARY ARRANGEMENT may be made at any time by an exchange of letters between the two Governments."

This Exchange of Letters No. 2 will be regarded as a further integral part of the original SA.

Rationale

In 2007, ADS Support took up new responsibilities in relation to the administration of ADS screening and selection. This transfer was recommended by the Project mid-term review mission in April 2005, and endorsed by both AusAID and the Ministry of Education and Training in the fourth Project Coordinating Committee (PCC) meeting on 17th June 2005.

Over the same period, AusAID implemented some major changes to Australian Scholarships administration associated with the introduction of Australian Leadership Awards in 2006, the recommendations of the ADS White Paper Implementation Mission (including the local tendering of English Language Training), and a business processes review. These changes significantly impacted on ADS Support operations. For example, the ADS Priority Public Institution program doubled in scope (from 6 to 11 institutions) and support to returned graduates and alumni was significantly enhanced.

In light of these changes, AusAID requests the Government of Vietnam to approve a one year extension to the ADS Support contract, the ADS Prep Project and the Subsidiary Arrangement, from 18 July 2008 to 18 July 2009. This extension will allow AusAID and its contractors to bed down new Project structures and processes to enhance the impact of the Project. On this basis, the ADS Support contract would be re-tendered in early 2009.
If approved, this will be the second extension to the Subsidiary Arrangement. The first extension (from 18 July 2006 to 18 July 2008) was approved by the Ministry of Education and Training in a letter dated 12th February 2007 (responding to AusAID’s letter dated 19th May 2006).

**Duration**

ADS Prep Project to be extended for one year from 18 July 2008 to 18 July 2009.

**Contribution**

As a result of the proposed extension, the total contribution of the Government of Australia to the Project will increase by A$1.7 million, from A$11,500,000.00 to A$13,200,000.00. The additional funding will be allocated from the annual bilateral program.

**Annex 2. Project Coordination and Management Arrangement**

**Vietnam Executing Agency**

Ministry of Education and Training staff will continue to be permanent members of the Project Coordinating Committee (PCC), will participate in the Project by attending PCC meetings and other stakeholder meetings as required, will arrange immigration entry visa procedures for Project staff, and endorse documents and reports submitted under the Project.

The Ministry of Education and Training will also ensure the availability of resources and contributions as outlined in Annexes 3 & 4.

**Australia Executing Agency**

During the one year extension, the Australian Managing Contractor for the ADS Support project will continue to implement all the tasks of the ADS program as assigned in the Subsidiary Arrangement and adjusted in the Exchange of Letters 1 and 2.

The total funding of the Government of Australia will increase up to A$13.2 million to cover the Project’s extension until 18 July 2009.

The revised contributions of the Government of Australia to the Project by financial year are as follows:

Dear Mr Hung

Exchange of Letters No. 3:
Amendment to the Subsidiary Arrangement of the
Vietnam Australian Development Scholarships Pre-departure Project

This Exchange of Letters seeks to extend further the Australian Development Scholarships Pre-departure Project until January 2012 and to increase the value of the Project by A$11,000,000 from A$13,200,000 to A$24,200,000.

I refer to Paragraph 13 of the Subsidiary Arrangement which stipulates that "Amendments to this Subsidiary Arrangement may be made at any time by an exchange of letters between the two governments."

This third Exchange of Letters will be regarded as a further integral part of the original Subsidiary Arrangement.

Rationale

The Vietnam Australian Development Scholarships Program has assisted Vietnamese scholars to undertake tertiary study in Australia since 2003.

Management of the Program is achieved via the Australian Development Scholarships Pre-departure Project. The Project has two components; pre-departure English language training; and administrative services for the selection and mobilisation of scholarship candidates. These components are managed by the two separate contracts.

In 2003 a Subsidiary Arrangement for the Australian Development Scholarships Pre-departure Project was signed under the Memorandum of Understanding on Development Cooperation between our two governments. The Subsidiary Arrangement has been extended twice via Exchange of Letters on 12 February 2007 and 16 June 2008. A further extension of the Subsidiary Arrangement is required to support the continued implementation of the Project and the delivery of AusAID scholarships in line with the recent redesign of our approach to scholarships in Vietnam.
Duration

The Subsidiary Agreement will be extended to 31 January 2012.

Contribution

The total contribution from the Australian Government to the Australian Development Scholarships Pre-departure Project will increase by A$11,000,000 from A$13,200,000 to A$24,200,000.

Your response to this letter will constitute an Exchange of Letters supplementing the Subsidiary Arrangement, as outlined in Paragraph 13 of the Subsidiary Arrangement.

Yours sincerely

Peter Baxter

Annex 1: Project Description

Project Background

The Vietnam Australian Development Scholarships Program has operated in Vietnam since 2003. In 2009 the Australian Government will provide 175 scholarships for post-graduate study in Australia.

In July 2008 AusAID conducted a review and a redesign for AusAID scholarships in Vietnam. The review concluded that the Australian Development Scholarships Pre-departure Project was effective in supporting the delivery of AusAID scholarships and recommended the aid program extend the Project until 2016, subject to the outcome of a comprehensive review of the Project and our approach to scholarships in 2012.

The approved design also incorporates some new approaches to the promotion of the program and the targeting of applicants. The new program, which will commence in late 2009, will also contribute more effectively to development priorities and human resource needs in Vietnam. The program name will change from the Australian Development Scholarships to AusAID Scholarships for Development in Vietnam to reflect the broader focus of our scholarships.

Scholarship Administration

Scholarship candidates are selected by a Joint Selection Committee comprising representatives from Ministry of Education and Training and AusAID Hanoi.

Annex 2: Project Coordination and Management Arrangement

Vietnam Executing Agency

Ministry of Education and Training staff will continue to be permanent members of the Project Coordinating Committee and will participate in the Project by attending Project Coordinating Committee meetings and other stakeholder meetings as required. Ministry of Education and Training staff will also arrange immigration entry visa procedures for Project staff, and endorse documents and reports submitted under the Project.

Australia Executing Agency

The Australian Executing Agency will be the Australian Agency for International Development (AusAID).

Project Coordinating Mechanisms

The coordinating authorities will be the Ministry of Education and Training, representing the Government of Vietnam, and AusAID Hanoi, representing the Australian Government. The Ministry of Planning and Investment, as the key counterpart agency responsible for managing Official Development Assistance in Vietnam, will also participate in the annual partnership high-level strategy consultations.
An Annual Strategic Review will be undertaken and managed through the high-level government consultations. The Ministry of Education and Training and AusAID Hanoi, via the Joint Selection Committee, will cooperate in the selection process and are the final decision makers on the awarding of scholarships each year.

**Annex 3. Contribution of the Australian Government**

The total funding from the Australian Government to the Australian Development Scholarships Pre-departure Project will increase to A$24,200,000.

The revised contributions of the Australian Government to the Project by financial year are as follows:

30 November 2011

Dear Vice Minister Ga

Exchange of Letters No. 4:
Amendment to the Subsidiary Arrangement of the
Vietnam Australian Development Scholarships Pre-departure Project

I write in regard to a further amendment to the Subsidiary Arrangement of the Australian Development Scholarships Pre-departure Project (herein after referred to as ‘the Project’), signed by delegates of the governments of Australia and Vietnam on 14 July 2003 (herein after referred to as ‘the Subsidiary Arrangement’).

According to Paragraph 13 of the Subsidiary Arrangement which stipulates that “Amendments to this Subsidiary Arrangement may be made at any time by an exchange of letters between the two governments”, the Subsidiary Arrangement has been amended three times via Exchange of Letters on 12 February 2007, 16 June 2008, and 30 November 2009 to reflect changes in implementation arrangement of the Project. Summary of the changes are:

<table>
<thead>
<tr>
<th>No. of Exchange of Letters</th>
<th>Agreement time</th>

</tr>

</table>
- Increased total contribution of Government of Australia to AUD 11.5 million. |
| Exchange of Letters No.2   | 16 June 2008   | - Extended the Project to 18 July 2009.  
- Increased total contribution of Government of Australia to AUD 13.2 million |
| Exchange of Letters No.3   | 30 November 2009 | - Extended the Project to 31 January 2012.  
- Increased total contribution of Government of Australia to AUD 24.2 million |

This Exchange of Letters is to seek your agreement to further extend the Project until 31 January 2016 and to increase the value of the Project by AUD 13,672,565 from AUD 24,200,000 to AUD 37,872,565.
This fourth Exchange of Letters will be regarded as an integral part of the original Subsidiary Arrangement.

Rationale

The Australian Development Scholarships Pre-departure Project is to provide management services for the Australia Development Awards, including Australian Development Scholarships (ADS) and Australian Leadership Awards (ALA), in Vietnam. The Project has two components: (i) Component 1: providing administrative services for the selection and mobilisation of up to 240 scholarship awardees each year, and monitoring of the Australian Development Scholarship program; and (ii) Component 2: providing in-country English language training for short-listed scholarship candidates.

Component 1 is currently managed by Coffey International Development Pty. The contract with Coffey is from 1 October 2009 to 31 January 2012, with an option to be extended to January 2016, subject to the outcomes of AusAID’s review of the pilot stage (2009-2012).

Component 2 is currently managed by Australian Centre for Education and Training (ACET). The contract with ACET is due to end in January 2013. The new contract will be re-tendered in March 2012 to cover the period from February 2013 to January 2016.

An independent mid-term review, carried out in July 2011, commented positively on the effectiveness, efficiency and adaptation of the project. Both contractors (Coffey and ACET) are performing well in meeting project objectives and being responsive to AusAID corporate requirements.

Based on the mid-term review’s outcomes, AusAID’s decision to extend the contract with Coffey from January 2012 to January 2016 was made in November 2011. As such, a further extension of the Subsidiary Arrangement is required to support the continued implementation of the Project to January 2016.

Duration

The Subsidiary Agreement will be extended to 31 January 2016.

Contribution

The total contribution from the Australian Government to the Project will increase by AUD 13,672,565 from AUD 24,200,000 to AUD 37,872,565. The revised contribution of the Australian Government to the Project is presented in the attached revised Annex 3.
Your positive response to this letter will constitute an Exchange of Letters supplementing the Subsidiary Arrangement, as outlined in Paragraph 13 of the Subsidiary Arrangement.

Yours sincerely,
