

ESTIMATED AUSTRALIAN ODA 2019-20 \$2.9 MILLION
GROSS NATIONAL INCOME PER CAPITA NOT AVAILABLE
POPULATION 1,500 (2015)

NIUE

Development cooperation
fact sheet: April 2019

Australian development cooperation supports Niue to improve its economic prosperity.

Strategic direction

Australia works with New Zealand through a delegated cooperation arrangement (DCA) to support development activities in Niue. The arrangement delivers better outcomes for Niue by improving donor coordination and reducing the administrative burden for the governments of Australia, New Zealand and Niue.

Australia's contribution focuses on education and waste management. These activities, aligned with the development priorities identified in the *Joint Commitment for Development between New Zealand and Niue*, will build an educated workforce ready to contribute to economic growth (SDG 4), and strengthen Niue's waste management infrastructure (SDG 9), creating healthier urban environments.

Program highlights

- Seven students were accepted into the 2019 **Australia Awards** Pacific Scholarship intake and are working towards qualifications in teaching, health and engineering. A further three school-leavers are working towards qualifications in trades.
- Work has commenced on a **waste management** project, which will help Niue sort and divert recyclable materials away from landfill and better manage hazardous waste.
- Australia provided funding to enable Niue's school teachers to obtain **teaching qualifications** through the University of the South Pacific.
