## GPFD - What is it meant to do?

GPFD is designed to help achieve Australia's ODA purpose, goals and objectives by:

(1) establishing sustainable public sector to public sector linkages

- involving knowledge, expertise, skills transfer
- between Australian and ODA-recipient country public sector organisations

(2) Addressing identified development needs

(3) for the benefit of the ODA-recipient country.

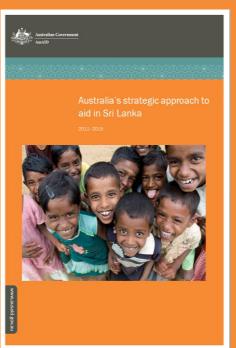

- Funding fewer, larger, longer activities/program of activities (\$1m-\$4m for 1-3 years)
- Close link to Comprehensive Aid Policy Framework and country and regional strategies; recognition of cross-cutting issues
- Designed to address identified development needs through public sector to public sector linkages to benefit the ODA-recipient country
- Focus on outcomes and outcome reporting
- Electronic application, approval and management (Smartygrants)
- Inter-government assessment panel: DESC/DEWG concept proposal assessment and then full proposal stage for short-listed concept proposals

Cross-Cutting Issues
