

Initiative Name:	Australia-Indonesia Partnership for HIV/AIDS		
AidWorks ID:	INH251	Total Amount:	\$96 million
Start Date:	1 February 2008	End Date:	31 December 2015

Quality	Rating (1-6)	Explanation	Pending Action (if needed)
1. Clear objectives	4	Strong Gol participation in planning processes; Needs and resource gap identification and donor coordination is a particular feature; Consistent with CS for Indonesia and broader Australian priorities.	(i) Two AIPH objectives to be defined. Minor adjustment to Objective 3 for HPCI to be considered;
2. Monitoring Framework	4	Proposed flexible and iterative planning process around M&E is appropriate; The integration and alignment with Gol systems and agencies is a real strength;	(i) Clear strategy oversight and monitoring to be adopted to ensure the various components are collectively on track. (ii) Seek to better integrate the monitoring processes (eg. indicators) with the review processes during implementation
3. Sustainability	5	Strong Gol policy alignment and stakeholder implementation roles conducive for longer term benefits. Flexible programming arrangements allow for prompt responses to emerging issues.	
4. Implementation and Risk Management	3.5	Management and finance arrangements based upon multiple partnerships with stakeholders.	(i) Better definition of roles and responsibilities of AMC in assisting with partner reporting and planning.
5. Analysis and lessons	4.5	Lessons from previous HIV activity implementation in Indonesia taken into account. Problem analysis draws upon evidence of the epidemic as well as activities of other donors	(i) Gender analysis to be strengthened; (ii) Need to explain that Papua response is in its infancy and reasons for lack of impact of work in Tanah Papua to date; need to draw on lessons from existing research & PNG experiences

Definitions of the Rating Scale:

Satisfactory (4, 5 and 6, above the line)		Less than satisfactory (1, 2 and 3, below the line)	
6	Very high quality; needs ongoing management and monitoring only	3	Less than adequate quality; needs work to improve in core areas
5	Good quality; needs minor work to improve in some areas	2	Poor quality; needs major work to improve
4	Adequate quality; needs some work to improve	1	Very poor quality; needs major overhaul
