

Singapore – Australia

Green Economy Agreement

Promotes and enables trade in 527 environmental goods and services, including addressing any non-tariff barriers.

Supports partnerships between ecolabelling and sustainability rating schemes to drive demand for low-carbon, sustainable, and resource efficient goods and services.

Facilitates greater business and investment opportunities in green growth sectors, including hydrogen.

Will see government and industry work together to build sustainable aviation and green shipping.

Architecture for cross-border electricity trade between Singapore and Australia.

Includes a joint statistical project to better measure the size and opportunities in the green economy transition.

Aligns sustainable finance policies to attract investment in Australian green transition projects.

Supports the development of compatible and credible international carbon markets.

Includes a grants program to help small and medium-sized businesses collaborate in green growth sectors.

Driving skills and capability development in a green economy workforce.
